

FORGING JT MIL LEADERSHIP

Est in 1949, NDA has been playing an instrumental role in shaping leaders for the Indian Armed Forces, emphasising character development, essential skills, and a strong foundation. With a rigorous training curriculum, it's aptly known as "The Cradle of Mil Leadership". NDA's focus on holistic development spans discipline crucial for future military leaders.

Recognising the changing landscape of warfare and socio-economic norms, there's a need to align training methodologies with modern challenges, incorporating gender equality and inclusive leadership. This seminar aims to critically analyse and assess the trg at NDA and propose a roadmap for future.
